Rates quoted do not include U. S. and state sales tax which are computed as follows:

U. S. Tax: 15% of the total of all calls under 25c. 25% of the total of calls of 25c and over.

(This tax is computed to the nearest multiple of 5c on each call from a coin telephone).

State Sales Tax: 2% on calls to points within the state where applicable.

RECORDING OF TELEPHONE CALLS

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the telephone company for your protection. Use of a recorder without this signal is unlawful. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

HOW TO DIAL ANOTHER PARTY ON THE SAME PARTY LINE CITY TELEPHONES

1. Lift the receiver and listen for the dial tone.
2. Dial "0" for the operator.
3. Say "Will you call a party on my line?" and give her the listed number. Hang up and she will ring the party for you.
4. Wait a short period after hanging up; then pick up your receiver and talk.

RURAL TELEPHONES

1. Lift the receiver and listen for the dial tone.
2. Dial the listed number.
3. Hang up your receiver. Ringing will not begin until you do so.
4. When your telephone stops ringing (wait about 5 seconds to be sure) it means the called party has answered. Pick up your receiver and talk. If your telephone continues to ring, it means the called party has not answered. To stop the ringing, just lift your receiver for a few seconds. Then replace it.

FACTS ABOUT LONG DISTANCE SERVICE

To assist you in choosing the service to use

STATION-TO-STATION CALLS

The rates are lower on these

On the lower-priced station-to-station call, you talk to anyone who answers at the number called. To make a station-to-station call:

Dial "Long Distance," and give the operator the name of the town to which you want to talk, and the telephone number, if you know it. For example, say "Memphis, Tennessee, 9-8798," or "Memphis, Tennessee, Mr. John Ford's residence at 197 Court Avenue."

Be sure not to specify any particular person, or the number or location of any private branch exchange station (such as Room 711, Hotel Excelsior, or Shipping Department). Such calls take the higher person-to-person rate.

Facts About Station-to-Station Calls

1. Rates are lower than on person-to-person calls. See rate table on inside front cover of this directory.
2. They are usually more quickly completed than person-to-person calls.
3. Generally the initial period of conversation without additional charge is three minutes; on some calls to nearby points the initial period is five minutes.
4. The call is timed from the moment the called telephone is answered.

COLLECT CALLS . . .

You may reverse charges; that is, have them billed to the called telephone. Simply tell the operator you want to call collect. If the called party agrees to pay the charges, they will be billed to his telephone.

PERSON-TO-PERSON CALLS

You talk to a particular person

On person-to-person calls, you call for a particular person, or a particular extension, such as "Room 711, Hotel Excelsior." This service assures your getting to talk to the person you want. To make a person-to-person call:

Dial "Long Distance," and give the operator the town, the telephone number or address, and the name of the person or department you want. For example, say "Memphis, Tennessee, 9-8798, Mr. John Ford," or "Memphis, Tennessee, 9-8798, Extension 711."

Facts About Person-to-Person Calls

1. Charges begin when you start talking with the called person or with anyone at a called extension telephone.
2. All initial periods are for three minutes. The rate for person-to-person calls is somewhat higher than for station-to-station calls.
3. We will make repeated attempts on the same or a later day to reach the person with whom you want to talk, at different telephones or even in different towns. No additional charge is made for this service.

FOR FASTER SERVICE . . .

CALL BY NUMBER . . .

If you know the number of the distant telephone, give it to Long Distance. It will speed your call.

Please!

**Listen for the dial tone
before you start to dial**

The dial tone's hum-m-m is the way the dial equipment says, "Number, please." If you begin to dial before the equipment is ready, you may get a wrong number or no number at all.

The telephone system is extra-busy these days. Not only are we providing service to more people, but everybody is using the telephone more and more. That's why the dial tone may be delayed a few seconds during the busy calling hours of the day—from 9 to 11 a.m. and between 6 and 8 p.m.

You can save time and help yourself to better telephone service if you always wait for the dial tone.
